Subject: GC and IR Questions

Good Morning Chuck,

1. Sonja came on Friday and did her IRs. Everything was good. (I did the QC for the new IR on Friday.)
2. We need more ^ 9 THC Std for the GC.
3. For the IR: We will be doing Cocaine HCl and Cocaine Base quarterly for QC. I wanted to know if you will be giving Della those standards. Also I had some questions about the old IR QC form. I was informed that there are some procedures we currently do not perform.
4. Finally, Dannie has been hounding me about the New IR. She has a Crack sample that she wants to do an IR. She stated that any Crack sample over 14.0 grams, we must do an IR. Betsy is aware of the issue.
Let me know, if she can use it or not. I told her I would ask you rather than her hounding you on Monday Morning.

Sorry. Welcome back.

Annie
